MLLM Evaluation

Seed 2.0:

Reasoning

Got it, let's evaluate each part step by step. First, clarity: the AS image is sharp, no blur, right? So 9? Wait wait, let's check. Content quality: the prompt says Popovich on sideline timeout drawing play for Spurs players ...

Overall high quality with minimal flaws. Wait let's make sure scores are integers 0-10. Let's adjust if needed? Wait maybe clarity 9, content quality 9, aesthetics 8, text_relevance_ip 10, overall 9.

Rationale

The generated image **has high clarity with sharp details of characters and the tactical board. Its content fully matches the prompt**: Popovich's likeness is consistent with GT2, it correctly presents the scenario of him drawing a play for surrounding Spurs players during a sideline timeout, all core required elements are included. **The composition is natural and conforms to the aesthetic characteristics of real sports event photos. All text and IP related elements are reasonable and relevant**, the Spurs jersey content is correct, there is no garbled or irrelevant text. The overall quality is high, with only minor non-critical imperfections.

Final Score

Overall: 9

clarity: 9 - **high clarity with sharp details**

content quality: 9 - **content fully matches the prompt**

aesthetics: 8 - **conforms to the aesthetic characteristics of real sports event photos**

text relevance: 10 - **all text and IP related elements are reasonable and relevant**
